Assumptions Used in Arriving at Fiscal Estimate

SB 553 establishes an assessment on critical access hospitals (CAH) operating in Wisconsin and directs the revenue raised through this assessment to be used for payments to critical access hospitals, funding for health care provider loans and rural physician assistance, and a transfer to the Medicaid Trust Fund.

The Department estimates that the assessment of CAH will generate \$10,579,500 in revenue annually, based on the SFY 2008 CAH gross patient revenue and the SFY 2010 hospital assessment rate of 1.6077%.

This revenue and the associated federal MA matching fund (\$11,243,200) would be used in the following ways:

- Payments to CAH: The Department would make payments of \$17,049,200 (\$5,899,000 SEG, \$11,150,200 FED) in SFY 2011 based on the methodology established under s. 49.45 (3) (e) 11. Federal MA regulations establish upper limits on payments to providers funded through provider assessments. The Department has concluded that the \$17,049,200 in payments to CAH will not exceed this limit.
- Funding for health care provider loans and rural physician assistance: the bill establishes \$250,000 SEG for health care provider loans and \$750,000 SEG for rural physician assistance in SFY 2011;
- Transfer to the Medicaid Trust Fund: The Department estimates \$3,680,500 will remain after payments to CAH and funding for health care provider loans and rural physician assistance and will be transferred to the Medicaid Trust Fund in SFY 2011. The bill increases expenditure authority in s. 20.435 (4)(w) so that this transferred funding can be used to offset the non-federal share of other MA payments.

This bill will generate GPR savings of \$3,680,500 through the use of SEG funding generated through the provider assessment and transferred to the Medicaid Trust Fund.

These savings will be applied to the legislatively-mandated Medicaid savings target under Act 28.

Long-Range Fiscal Implications

The Department currently receives an enhanced federal MA rate under The American Recovery and Reinvestment Act of 2009 (ARRA). When this enhanced rate ends in December 31, 2010, the federal funding claimed through the assessment revenue will decline, increasing the amount of SEG required for the provider payments and reducing the amount available to offset GPR in MA programs.
